EXPERIENCE

National CyberShield Hackathon, Finalist (at MANIT Bhopal)

Our team was among Top 15 finalist in National CyberSheild Hackathon organized by Madhya Pradesh Police as a part of the CIIS 2025 Summit.

HackHatch Hackathon, Finalist (at IIIT Delhi)

Selected as in the HackHatch hackathon held at IIIT Delhi, competing against nationwide teams in a 24-hour sprint.

Core Member, AWS Cloud Club (Tech Team)

Developed the club's website & Managed technical setup and demos at events.

Student Coordinator, GeeksforGeeks Student Chapter(VIT BHOPAL)

EDUCATION

Bachelor of Technology in Computer Science and Engineering,

VIT Bhopal University, CGPA : 8.81

Pre-final year

08/2024 – 04/2028

Bhopal, India

TECHNICAL SKILLS

Languages

Python, C, C++, JavaScript

Web & Databases

HTML, CSS, Flask, SQL, MySQL

Developer Tools

Git, GitHub, Anaconda, VS Code, Google Colab

Data & AI Tools

NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn

PROJECTS

Ensemble Weather Prediction Model ,

03/2026 – 05/2026

Tech used: Python, Scikit-learn, Flask, Pandas, NumPy

- Built an end-to-end ML pipeline for a weather forecasting system, utilizing an Ensemble Learning approach (Random Forest and XGBoost) to significantly improve prediction accuracy.
- Deployed the model via a Flask API, utilizing model serialization to serve fast and efficient real-time weather predictions.

Voice Assistant (Jarvis-inspired),

08/2025 – 09/2025

Tech used: Python, SpeechRecognition, Web Automation

- Developed a voice-activated virtual assistant using Python to automate routine desktop tasks and improve user productivity.
- Integrated the SpeechRecognition library for real-time speech-to-text processing.
